This sheet should be filled out each week with minutes studied in the following categories:

- 1) **Studying/memorizing quotes** - any time spent in an effort to learn and memorize the quote passages of the current month's material (maximum of 60 minutes per week to be counted for points *unless non quote time exceeds 30 minutes)
- 2) **Completing a take-home worksheet** the minutes spent completing a practice worksheet, not the number of worksheets you completed. Quizzer must turn-in worksheets at practice to gain the additional 3 points for their completion.
- 3) **Solo studying/reading through material.** Use this whether studying to answer questions or when memorizing a whole chapter
- 4) **Self asking and answering practice questions** (by yourself). Use something to cover the answer, read the question, think of the answer, check your answer with the paper, mark it if incorrect for further review.
- 5) **Asking and answering practice questions with another** person (parent, sibling, friend). Same as number 4, but with two people.
